Location: St. Lucia South Africa
Client: Private
Description: New home / bed & breakfast.

Our clients have given us the ideal assignment: Design a dream house, with a Bed and Breakfast on a beautiful plot, with views on the wetlands and the Indian Ocean. Keep local circumstances in mind, like the climate, the appearance of monkeys, hippos and also a harsh building practice. The shape of the complex is based on natural circumstances, like protected trees, orientation of the sun, the views and the sloping terrain. Next to this, the shape is based on the separation of private and semi-public domain and the need to use straightforward building methods.
